ABOUT CONSCRIPTION

We hear quite a few remarks these days somewhat like this: "Well he voted for conscription, and now when his son is taken he should take his medicine with good grace."

Every farmer or other citizen of Alberta who voted for the Union government is in favor of conscription, and is in favor of the cancelling of exemptions when the Empire was sorely in need of men. We defy the men who are howling to give us the name of one man in the Lacombe district who voted for the Union government and is "kicking" because his son is conscripted. No gentle reader the men who voted for the Union government did so because they thought it was in the interests of Canada, and their good judgment has been more than borne out by events.

The men who are howling about conscription are the men who voted for the Laurier candidate in ninety nine cases out of a hundred.

THE BLOODY TRAIL

In Warsaw recently the German ambassador was assassinated and on Wednesday last Germany's military representative of the Ukraine province fell a victim of the assassin's death dealing bomb. Thus do the people of occupied Russia show their feeling towards the Germans and their system of rule.

There need never be any fear that Germany will succeed in retaining peaceful occupation of the territory wrested from Russia and Roumania during the war, though in the peace that is to come she should be awarded possession, which is most unlikely. The Germans have no genius for successful government of peoples of other races but their own, and must make a failure of the job wherever they try it.

In Russia they will be in occupation no longer than the time it takes to organize successful opposition to their rule. While they remain they will have to enforce their will with the sword because their will and their way of stating it is so distasteful to people who have in them any spirit or desire to become or remain free men. Government of these peoples under armed compulsion will be a mighty expensive undertaking, and it is doubtful if the rewards would be commensurate with the losses sure to be incurred.

The two assassinations recently recorded serve to give the world an idea just how the Russian people—not the so-called Russian government—regard the Germans. They were seeking liberty for themselves and now discover that they have been placed under the heel of an oppressor. Their determination still is to be free, and if they cannot reach the goal they have set themselves by peaceful methods they will travel the bloody trail as they have so frequently done before. President Wilson shows wisdom in his decision not to leave Russia to her fate.

CEAR NICHOLAS WAS MURDERED IN COLD BLOOD

Amsterdam, July 21.—Given two hours in which to prepare for the end Nicholas Romanoff, former Russian emperor, was taken out by his executioners in a state of such collapse, that it was necessary to prop him against a post, says the Lokal Anzeiger of Berlin, which claims to have received from a Russian personage an account of the Emperor's last hours.

Nicholas was awakened at 5 o'clock on the morning of the day of his execution by a patrol of a non-commissioned officer and six men. He was told to dress and was taken to a room where the decision of the soviet council was communicated to him. He was informed the execution would be carried out in two hours.

The former emperor, it is added, received the announcement of the sentence of death with great calmness. He returned to his bedroom and collapsed into a chair, after a few moments he asked for a priest with whom he was allowed to remain unattended. Subsequently he wrote several letters. When the escort arrived to take him to the place of execution, Nicholas attempted to rise from his chair but was not able. The priest and a soldier were obliged to help him get to his feet. The condemned man then descended the stairs with difficulty and once he fell down.

As he was unable to stand without support, when the place of execution was reached, he was propped against a post. He raised his hands and seemed to be trying to speak, but the rifles spoke and he fell dead.

GET WAR OVER BEFORE TOUCHING TARIFF—DR CLARKE

Calgary, Aug. 1.—Recent events would go to show that before the year is out the government will need the advice of parliament, said Dr. Michael Clarke, M. P. of Red Deer, in speaking to the press representatives here.

Dr. Clarke expressed himself as being strongly opposed to the Canadian government taking up the subject of imperial preference at the present time. He said that the government was elected to win the war, and that was its business. It had no mandate from the people to deal with post war problems. "Let us first dispose of the enemy," said he, "and then it will be time to deal with the tariff questions."

Dr. Clark has spent two strenuous months on the farm. He appears to be in perfect health and thanks god he has a crop to work at. He left to-night for Hamilton and Ottawa.

German official equivocators are hard put these days to frame up passable stories explaining the defeats their armies are suffering at the hands of the Allies in France. And the German public is becoming more and more skeptical.

OPEN DISCUSSION MAY LEAD TO PEACE SAYS LANSDOWNE

Editor, July 23.—In a letter written by the Marquis of Lansdowne, former minister without portfolio in the British Cabinet, he says he is convinced that there is a "deep seated desire for a further explanation as to the conditions upon which we are prepared not to make peace, but open discussion which might lead to peace."

The writer assumes that secret treaties are liable to revision, and referring to President Wilson's "last speech, he says:

"It is a picture drawn by a great master, of the golden age to which we are beginning to look forward. It does not seem, however to provide those who are in search of a basis for preliminary negotiations with the kind of ground work after which they are striving."

Lord Lansdowne's letter concludes:

"If one moment is more opportune than another it is the moment when events have shown that, whatever is the feeling which inspires us, it is not one of doubt as to our ability to hold our own in

according to the registrar-general in a recent paper is costing the belligerents 12,500,000 potential lives of which 650,000 have been lost to England and Wales.

Chances look slim for the twenty dollar hog if British markets are stocked up with bacon and sale restrictions are to be removed in Canada.

It is announced that the Turks have broken through the lines of the Turks couldn't stand the Kaiser and his methods, so much like their own, is it any wonder that civilized people find him and them impossible?

Having succeeded in forming a new defence line far back of their line of advance, the Germans are now standing up to the Allied drive. It makes the fight a little harder for the Allies, but just as destructive to the enemy.

They have a very compelling way of settling strikes in Austria. Turning machine guns on ranks of the strikers quickly takes all the fight out of them. And that is about the only way the Austrians are able now to keep the people under control.

Premier Oliver, of British Columbia, urges the people of Canada to produce as much as possible after the war. It is good advice. Only by such means will we be able to meet our heavy war liabilities of the future.

Great flocks of ducks are reported flying from the north at Dawson City two months before their regular time. Does this mean that the year 1918 intends to put a finishing touch to its eccentricity by starting winter some time in the early fall.

The food controllers of Allied countries have been in session in London, and the announcement they make is that there must be continued economy for a long time coupled with greater production, if the Allies are to be fully assured of final and complete victory. That is something that needs to be impressed upon the people everywhere. Food conservation is not a matter of spasmodic effort. It must be a continuous performance.

The man who tells us that under party government such an affair as the letter carriers strike could not have happened, and who blames Union government for all the trouble is talking rot. Such affairs are usually the result of bad management, and worse judgment, on the part of individuals who are not big enough for their jobs. People of that description are occasionally found in all governments. Union government is certainly no worse and probably some better than past party governments in Canada in this respect.

this deadly struggle if we are forced to continue it.

In the beginning of his letter Lord Lansdowne said:

"We are about to commence the fifth year of the great struggle for liberty, and next week we shall reaffirm a solemn resolve not to desist from the effort until peace with honor is in sight."

Meanwhile, with every month that passes the toll which the war is claiming grows heavier and heavier. The civilized world is being drained of its resources, is spending its energies in purely destructive efforts, each of which involves the further diminution of its resources of powers and the further mutilation of machinery of production."

Lord Lansdowne refers to the estimates placing the casualties of the belligerents at 30,000,000, of which 7,000,000 have been killed and 6,000,000 made prisoner or numbered among the missing, and to the decline in birth rate, which

Gentlemen:
I arrived in France April, 1917, with one of your cars (Model D45 Touring). Up to now it has covered over 18,000 miles over all conditions of roads, some so bad one would never think of taking a car in private use.
If it only fair to you add your car that I should tell you that up to now it has given no trouble nor has it had any replacements except one plug and the carbon removed. The oil we are getting not always the best.
This statement is correct and will bear any investigation. Have had much pleasure with this car, compared with others, suggested it to me that I should write you this note, which may be of some use.

BAD LAND NEWS

There is no use trying to keep it quiet, Jack Dameron is responsible for the bad weather that is making so many ens. With that foolhardiness for which he is noted, he purchased an iceless refrigerator. No sooner had he arrived than down went the temperature throughout the district. A deputation from Aspen Beach waited on Jack Wednesday morning to make arrangements for having the refrigerator placed in Gull Lake so they could enjoy summer skating.

It is said an Austrian named Von Steer was the chief of the German spies in the U.S. Was he and relation to Jeremiah O'Leary's Bull?

Doc Harrington is greatly exercised over the behavior of his finest pure bred hens which insist on laying in his coal yard. He told John McNab about it. "Weel said John "prohabs they has seen your advt. in the Globe "Now is the time to lay in your coal."

The news that Germany wished to send Gen. Belov to Austria to superintend her military operations was evidently received in that country with the Dology "Man wants but little Herr Belov, nor wants that little long."

Admiral Brownlow has returned to these parts from his recruiting trip to the United States, and has resumed command of the Allied fleet on Gull Lake, Commodore Williamson is in charge of the destroyer flotilla at Sucker ditch.

For a long time we have been told of the shortage of wool in Germany. Tinct still seems to be enough for the Kaiser to pull over the eyes of the German people.

Our own Correspondent

WELL HANDLED

Hon. Duncan Marshall assures The Globe that so far as it has been possible to force and plan the unusual and discouraging grain and stock situation, which faces Alberta farmers and stockmen, both north and south, this fall, is being successfully met. The result is that a condition of affairs which some weeks ago looked well nigh hopeless for many men and two great industries, has been largely overcome.

When, drought swept away all chance of a decent crop in the south country and left cattlemen without winter fodder for their stock it was only natural that there should have been a rush to dispose of everything in the herds that was saleable. Such action spelled disaster for the livestock industry in Alberta is not so well stocked that she could afford to slaughter many of her breeding females and not suffer.

With commendable promptitude the provincial department of agriculture, along with Dominion authorities, undertook to survey the situation and, if possible, relieve conditions. It has been no light task and in the prosecution of it a good deal of red tape had to be cut out in order to bring results quickly. Today, thanks to an intervention of nature in the north country in the shape of a severe frost, which increased the amount of feed and made northern farmers very willing to handle south country herds over the winter, the whole problem seems to be well in hand.

It is gratifying to know from the packers that fewer cows are being slaughtered than in the past years. That means that they are being turned back from the stockyards' pens to the range under arrangements as perfected by the provincial and Dominion authorities and the railways. And

the whole incident serves to illustrate how desirable it is that there shall be men on these important jobs in government who know their business and are active enough to step in and do things when emergency arises.

FARMERS ASKED TO SAY WHEN HELP NEEDED

Soldiers of the soil throughout the Dominion of Canada are fully organized for their share in the campaign for increased production this year. More than 25,000 boys between the ages of 15 and 19 years have been enrolled and in the province of Alberta, several hundred have been taken out on the farms to help with the seeding. In the harvest time it is expected practically all of the lads who had signified their willingness to help in this movement will be used on the land by the farmers.

Training these boys for farm work will mean a great deal in years to come. However serious the labor shortage is this year it will be more acute next, and during the difficult years ahead. This side of the soil movement will mean a great deal to Canada when the native sons are trained for work on the land.

Alberta farmers or boys who have enrolled with the Canada Food Board for the greater production campaign, and who make arrangements for themselves should notify A. L. Marks, the provincial superintendent, 427 Tegner building, Edmonton. A great deal of confusion has been caused by failure to do so in the past, and it is the desire of the officials to obviate this as far as possible. In several instances of boys have been sent to farmers only to find on arrival that help has already been obtained, and numerous boys, when allotted have written in to say that they had already obtained employment. In order to save the necessary trouble to all parties concerned, farmers and boys are asked to advise Mr. Marks regarding any arrangements entered into.

GOWLAND-FORBES

About 4:30 p.m. July 24th, a quiet wedding occurred at the parsonage, Lacombe, when Cora E. daughter of Mr. and Mrs. W. S. Forbes, of Wolfon Out., was united in marriage to R. Cecil Gowland, of Willesden Green, Alberta. The ceremony was performed by Rev. W. Hollingsworth, only the contracting parties being present.

The bride was charmingly attired in white voile trimmed with pearls, and wore a white panama hat. Her travelling suit was of blue serge with a crepe blouse to match, and white felt motor hat. Among the various gifts was a cabinet of silver from the brides mother, and a handsome cheque from her father.

After the ceremony the happy couple motored to Kinsey and the following day went home to Hill View Farm, Willesden Green.

THE POSTAL STRIKE

The postal strike is now ended much to the relief of the public generally. That the men who went on strike were justified, we do not deny. No section of the public service is as poorly paid as the postal department. But in asking that their grievances be settled by a committee outside of the government they were decidedly in the wrong. The government very properly did not grant their request, but has given the assurance that the question of pay of postal employees will be revised immediately. And the employees must needs be satisfied.

IN SIXTY DAYS CITIZENS OF U.S. CAN BE DRAFTED

Ottawa, Aug. 4.—Instructions have been sent out to all registrars and deputy registrars throughout Canada under the military service act outlining procedure in regard to the draft laws under the enlistment of American citizens in Canada subject to the draft laws under the new Canadian-American convention. All male Americans of the ages twenty-one to thirty, both inclusive, are given sixty days either to enlist or enroll voluntarily in Canadian Expeditionary forces or to claim diplomatic exemption. If at the expiration of the sixty days these men have done nothing in regard to the military service they automatically become subject to the Canadian draft laws.

There will be a general registration taken throughout Canada of all such men and on the expiry of the sixty days will be called upon to report for service. All American residents in Canada who wish to place themselves under the American draft law and desire information as to procedure should apply to the nearest American Consul. Instructions to consuls are now being forwarded from Washington.

RIMBEY NEWS

A meeting was held in the Rimbey Hall on Thursday last for the purpose of organizing a local auxiliary of the Military Y.M.C.A. After statement of the aims of the Association, the following officers were elected. President Mrs. Connelley; Vice-President Mr. McBride; Sec-Treas. Rev. Frederick Amos.

The executive consists of the officers and also Mrs. S. J. Ryers, Miss Turner and Mr. William Brooks. A drive for membership is to be launched immediately, the following being elected team captains: Mr. Connelley, Miss Turner, Mr. W. A. Saunders and Mr. G. Manson.

The next meeting is held for August 14th at eight thirty in the Hall.

The Windsor Hotel has recently changed hands, and will be under new management in the future. Mr. Wilton the new proprietor is a returned veteran who has seen active service on the western front. It is his intention to run the house at popular prices

whilst giving the best of service. In addition to the regular menu, order tickets will be served when desired. Meal tickets will also be obtainable.

William George Manson the popular teacher of the Rimbey School and Esther Stutheit were married on Tuesday morning. The wedding ceremony was performed at home of the bride four miles west of Rimbey by Rev. Frederick Amos, in the presence of a few friends of the family. Mr. and Mrs. Manson left immediately after the ceremony for a few days in Calgary and Banff.

CHANCE GIVEN TO EVADERS OF SERVICE ACT

Ottawa, Aug. 2.—An extra of the Canada Gazette issued at seven o'clock this evening contained a proclamation removing deserters and absentees under the Military Service act from liability to punishment if they report for duty between now and August 24th. It is recognized that many men who failed to report because of lack of a proper understanding will be glad and willing to do so, if a period of grace is allowed. It is believed that the giving of such a period will bring to the colors many men whom it would be difficult otherwise to recruit.

Men who are classed deserters and absentees, subsequent to August 24, will, the proclamation states, be pursued and punished with all rigor and severity of the law subject to the judgment of court martial which will be convened to try such cases and other competent tribunals. The proclamation provides that "those who employ, harbor, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for the offence."

On account of the scarcity of grain, the Lacombe Flour Mill will be open only on Monday of each week, until the new crop comes in.

SHOWS BRITAIN'S GREAT WAR EFFORT

Washington, August 1.—Lord Curzon, member of the British war cabinet, gave figures Monday night in a speech portions of which have been received here by wireless, which shows the extent of British war effort in manpower. Lord Curzon said that Great Britain had given 7,000,000 men and that 5,000,000 Britons were today fighting in foreign theatres of the war. Allowing for casualties and presuming these figures to include navy, the men are taken as indicating the fact that the only troops in England are men on leave and men in depots, either of the supply services or undergoing the reorganization of units.

REIGN OF BOLSHEVIKI IS COMING TO AN END;

London, July 3.—Information reaching Stockholm, says the correspondent of the Times there, shows that the Bolsheviki regime has come to the end of its tether and that the Russian masses—Workmen, peasants—are about to rise in arms against Bolsheviki tyranny.

Official representatives of the social revolutionary and social democratic parties in Russia have arrived in Stockholm, says the correspondent, and have issued a remarkable appeal to the socialists of Europe. They call on the socialists to form an international commonwealth, representing all socialist parties to visit and ascertain by direct investigation whether the Russian Socialists are not right in declaring that the Bolsheviki have brought wide spread evils on Russia, destroyed industry, caused universal starvation, despotically oppressed the people, and are now concerned only in retaining power at all costs.

The representatives are Rusanoff for the social revolutionaries, and Axelrod for the social democrats. They represented their prospective parties at Stockholm in the summer of 1917 when an abortive attempt was made to organize an inter-socialist convention.

DARK DAYS ARE OVER—HARD MONTHS STILL AHEAD

Paris, July 31.—Andre Tardieu French high commissioner to the United States, at a dinner Monday at the American university union, declared that the dark days were over, but there are hard months ahead. "The first great battle in which your own troops have participated extensively has been a great victory," he said. "The part taken by your soldiers is well known in France. The soldiers of the American divisions which on the morning of July 18 gained six kilometers have shown themselves to be the equal of the best French Troops. Your rank and file, officers and staffs are deserving of the same praise."

"The war is not over yet." Hard months are ahead of us, but we have already taken the initiative. As far as numbers the critical times are over with us. Under the strong leadership of a chief who is worthy of France, Premier Clemenceau, we have held our ground. Today after some time on the defensive, the time for a victorious attack has come and the dark days are over.

"While greeting the completion of the first million American troops in France, we have greeted the first success. In common with you Americans we and our gallant allies are standing ready for the supreme effort."

Ambassador Sharpe in response said: "American soldiers could not help being brave after such examples of magnificent courage as displayed by the French troops. The first million is here. Another million will follow and as many millions as are necessary to bring the cause of democracy to victorious peace."

Just to show that they can do it, the Americans sent no less than 300,000 men across to France during the month of July. That does not look as if the submarine menace extended to the American coast were frightening Uncle Sam very much.

Austria's new premier announces that the Teutons are ready to conclude an honorable peace with the Allies. But how will it be possible for the Allies to conclude a peace with a foe who up to the last minute of the conflict has shown himself to be utterly and totally dishonorable.

Piles of German ammunition stacked up like cordwood, were taken by the Allies in their Champagne offensive. And having taken many of the guns for which the ammunition was intended it will come in very handy later on. The enemy was surely well surprised by Gen. Foch's coup.

Montreal authorities are going after all citizens of enemy countries with the object of putting a stop to Bolshevism, which has been very pronounced in that city recently. Internment or deportation is the fate in store for the undesirable. The authorities are to be commended for their determination.

Following the disclosures of Prince Liechowsky is the demand for the immediate arrest of von Berthmann-Hollweg, whom he charges with being guilty of appalling deeds and a traitor to his country in bringing Germany into war. The ex-claimant says that

if the reichstag does not order Von Berthmann-Hollweg's arrest he and his family will quit the fatherland for good. Here's another German with a conscience.

R. B. Bennett should ask to be defended from some of his defenders. One of them compares him to John Hampden. There is this difference between the two. John Hampden came to the fore because he defied autocracy. R. B. Bennett owes his recent prominence to the effort which he made by an appeal to a legal technicality to release men from the Canadian army who are needed overseas to prevent the imposition upon us of just such another autocracy as Hampden and Cromwell fought. One would think from the news paper comment that we read that Canadian government was conscripting men for some arbitrary purpose. It cancelled Canadian exemptions for exactly the same reason as the British government cancelled British exemptions in order to bring about the defeat of Germany.

To Pathe goes the honor of being the first to release a motion picture adapted from a book from Rudyard Kipling, his immortal masterpiece, "The Light That Failed" has been produced under the direction of Edward Jose with Robert Edson as the star. "The Light That Failed" is as famous as its author. The Pathe company are justly proud that Kipling gave it permission to film his masterpiece. Not only did he do that, but he actually wrote the sub-titles for the production. This shows the interest he took in it and is a stamp of approval upon the photoplay. In the cast supporting Robert Edson, appear such well known players as Claude Fleming, Lillian Tucker and Jose Collins. "The Light That Failed" will be shown at the Rex theatre on Tuesday Aug. 13.

Miss Ethel Clayton, who plays the role of Joan Merrifield in "The Stolen Paradise," wears some exceedingly attractive gowns in this production. Needless to say Miss Clayton appears to charming advantage in each of them.

This beautiful drama will be the feature at the Rex on Thursday evening next.

EXAMINATION RESULTS

The results of the recent departmental examinations in grades XI and XII are out, and are most disappointing so far as Lacombe High School is concerned. Lacombe made a clean score, not one student in either of the above grades passing, which does not redound to the credit of those in charge last year. It is the worst record Lacombe has ever made, and a record we hope will not be repeated.

Better results could not have been expected last year. There was continual friction among the teachers, and naturally the students suffered. It proves costly friction for the parents of Lacombe, and we do not think that the teachers have gained in the way of reputation. Lacombe's High School also suffers, and its reputation as one of the leading schools in the province has received a severe set back.

The outlook for a more successful year to come is better. The Board has secured as principal and vice-principal, two young men with splendid records, and whose qualifications are beyond dispute. Messrs. Cartwright and Munzer. These gentlemen came to Lacombe with the highest recommendations, and have proved themselves to be competent teachers.

RURAL HOSPITAL

Great interest is being manifested in the Rural hospital scheme, and the addresses in explanation of the act are bearing fruit. The speakers at the series of meetings held last week in the interests of the hospital fully explained the working of the act, and the more it was explained the more enthusiastic the people seemed to be in its favor.

The leading points brought out by the addresses and discussions might be briefly summarized as follows. The people must themselves initiate the movement—not the department. They can do this by (1) petitions signed by the councils of the area tentatively arranged, or of any adjoining area wishing to come into the Hospital district, (2) by petitions signed by 25 or more ratepayers from any of such Municipalities or Districts. All these petitions are to be on Forms supplied by the department.

Mr. Gilmour has a number of copies of these Forms. The petition simply asks that the Municipality or District be included in the Hospital District. The Hospital District is finally composed of all sending in such petitions. After the area has thus been determined by the request of the people the hospital district is established by the Minister, who next calls

**TROUBLE BREAKS IN CAMP
OF WAR VETERANS**

Toronto, July 31.—As the culmination of murmurings which have been heard ever since the opening of the G.W.V.A. Convention the Winnipeg and Ottawa delegations today walked out of the convention and decided to take no further part in its deliberations.

The question of proportional representation was at the root of the trouble. The delegates from Ottawa and the West have claimed that suggestions made by them have been persistently voted down by the predominance of voting power in Ontario and they say that if the representation at the convention were proportional to paid up membership this would not have been possible.

Matters nearly came to a break last night but things were patched up for a while and the delegates attended the morning session. This afternoon, however, they held a meeting at the Carls Rite Hotel and decided definitely to have nothing more to do with the convention.

Following this meeting the Winnipeg and Ottawa delegates this evening issued a statement in the form of a letter to the president of the Association outlining their position. In it they claimed that while Ontario has only 7,563, paid up members to 11,573 in the rest of the Dominion it has 93 accredited delegates while the rest of Canada has only 84. They disclaim

each contributing council to appoint members for a Hospital Board. This Board, representing each part of the included area, meets, and with the advice of the Department, forms a scheme for the district. It arranges a site, location, building, equipment, and financing of the scheme. The Department has had prepared models plans for the three grades of Hospitals, and these have the endorsement of the Medical and Nursing Associations of the Province but are not compulsory. Certain conditions, sanitary and hygienic are enforced before a scheme can be accepted by the Department, but as much latitude as is consistent with efficiency and public health is left with the local board. For a district such as has been tentatively planned by the Minister, we should probably need an eighteen-bed Hospital, at an estimated cost of \$17,000 and a further \$8,000 for equipment. The same area, at the maximum taxation allowed (three cents on the acre, or three mills on the dollar, of assessed value), would bring in about \$17,000 of revenue. To this might be added a scale of Fees which, according to other and similar Hospital schemes, might be about one dollar per day for Rate payers, and their families, and two or two and a half dollars per day for others in the district. Then there is also the governments allowance of 2c per Hospital day per patient. The definite scale of plans is, as has been said, left to the board, and when its scheme has been endorsed by the Minister, the whole plan is advertised in the Press. At this stage any ratepayers, from any part of the included Area can send in a signed protest against any part of the proposed scheme and the board of Public Utility Commissioners must in such case act as arbiters on the case. When a final decision has thus been reached the whole act is placed before the people for their vote. Ratification or Rejection is in the hands of the people. If accepted by two-thirds majority of the ratepayers voting it becomes law, and the Board becomes a corporate body with power to act on the scheme as voted on. At the first meeting of the contributing councils in each year the new members for the board are elected. Such members are not necessarily councillors.

the impression that an attempt is being made to formulate a political organization with the idea of running the country and declare that "the attitude adopted from time to time by jeering and howling at outside delegates with whom they may not agree is not conducive to harmony or good results."

The alien labor question will be debated on Friday, when a lengthy resolution prepared by the special alien enemy committee comes up points of the resolution are:

- 1 All enemy aliens, not already so employed, to be interned and perform work of national importance.
- 2 Enemy aliens not to travel more than 5 miles without a passport.
- 3 Appointment of alien enemy custodian.
- 4 Rigid enforcement of registration.
- 5 Supertax on incomes by enemy aliens.
- 6 Prohibition of enemy alien publications.
- 7 No enemy aliens in federal, provincial or municipal positions.
- 8 Allied aliens to be conscripted or deported to their own country.

TRAGIC STORY OF FINAL CAPTURE OF TOWN OF SERINGES

London, Aug. 1.—Yesterday was a day of hard in and out fighting on the American front telegraph's Ser-
Reuter's correspondent on the front north of the Marne. He says that the final capture of Ser-
ing is the Americans was an especially creditable achievement.

Since the Americans took the village on Monday, the Germans made no infantry attack on the place, but kept up a constant artillery and machine gun fire to drive them out. This continued all day on Tuesday and toward evening the enemy seemed to think that the spirit of the defenders might be broken and they then began to emerge from the Neesles forest in a way that seemed to forecast a fresh attack to take the village. Of the fighting which ensued the correspondent writes:

The Americans after three days of to and fro fighting through villages had learned subtlety and were determined to have a real fight to a finish. They consequently withdrew as if retreating from Seringes and the Germans crept down from their high ground convinced they had their opponents beaten. Additional German troops came pouring in until the town was occupied as it never had been before.

But as the new occupants began to organize their defences bullets appeared to be coming in from three sides of the village, and it was not long before they discovered that the Americans while withdrawing from the front of the town had commenced an encircling movement on both sides, thus forming a ring almost completely around it.

Then came tragic fighting. The Prussian Guards had voted not to surrender and their opponents were just as anxious to see the thing through. It was an affair of small arms, but the Americans proved to be better shots and slowly picked off men here and there. Then the Americans began to advance and slowly their encircling ring closed round the village. As the ring drew closer and the defenders saw their doom approaching, they doubled their fire, but still the Americans came unfalteringly like a storm or the unavoidable stroke of fate.

When the Americans reached the precincts of the village their fire ceased and with one wild yell they closed with the foe. The fierce uproar suddenly gave place to a strange silence as men grappled with men. Only the clash of steel on steel and the groans of the stricken could be heard.

The issue never was in doubt for an instant. At this kind of fight-

ing the American is more than equal to any Prussian guardsman, and in a little more than 10 minutes all was over. Except for a few German prisoners every German in the village had breathed his last, such was the final capture of Seringes.

"During the night the enemy twice attempted to take Ser-
each time he was repulsed with heavy losses. Then he made a fierce onslaught on Meurey, east of Seringes, which was piled with dead, which he had left there the day before when every man defending it died at his post. There again the enemy was unsuccessful though not until steel had crossed steel in the big farm yard and the heaps of German slain been doubt-
led in the ruins about it.

"This was classic fighting indeed, man against man and the better win. There was no call for quarter. The pride of the professional soldier was up against the pride of the free man, both preferring death to surrender.

"Later in the morning the fighting extended still further eastward and in every case the Germans who attacked were annihilated. Later came the attack at Seringes and an attempt at the same time to drive the allied from hill 187, west of Seringes.

"There for the first time since the Allies crossed the Ouse the Germans may be said to have definitely taken the offensive.

"All through the day's fighting the enemy's airplanes attempted in the most daring manner to assist in the battle. Early in the morning six enemy planes succeeded in penetrating far as La Croix Blanche farm, near La Fere Forest. They swooped down close above the roads in the valley and fired upon the allied troops.

Members of the Prussian Guard who were captured by the Americans, state that their orders were to hold the line at any cost and well they obeyed. All three of their helmets apparently were in the line on this memorable day, which ended everywhere in victory for the allies, although there was no great gain of ground.

"During the following night ground was taken near Seringes by the Americans. The advance will make it possible for the troops in the sector to join hands with the conquerors of Ser-
Seringes."

DRAFT EVADER KILLED BY CONSTABLE

Nanaimo, B. C. Aug. 1.—Provincial Chief Constable Stephenson returned here this afternoon from Cumberland where he had been to bring the body of Goodwin, the slain draft evader, out of the woods. With him was Dominion

Constable Dan Campbell, under arrest on the charge of murder arising out of the case. Constable Campbell was sent down to Victoria to stand his trial on the charge. Chief Constable Stephenson states that Goodwin was shot through the left wrist, the bullet then entering his neck and severing his spinal cord.

The dead man had his rifle firmly clutched in both hands. The result of the shooting has already been manifested here by the fact that several young men who are known to have taken to the woods as soon as the military service act became law and for whom search has been so far unavailable, have given themselves up to the authorities.

King George has decided to buy no new clothes during 1918. We are glad to see that we are in such distinguished company.

BILL BAILIE TAKES LAST ROUND

To the Editor:

Dear Sir:

I have just seen your paper of the 17th July, and noticed Mr. Hans P. Hansen with the aid of his collaborator has produced a letter even more insulting and outrageous than his last effort. For the benefit of the uninitiated I may say that Mr. Hansen being better with dough or a dung fork than with diction and a dictionary has to collaborate the production of these wonderful letters of his with a neighbor who has the pen of a ready writer.

He says "Do you think I would dare to make any untrue statements about you or any one else in a newspaper." I don't think I know he would and has. When he says I have a "gang" he lies, when he says I encourage anyone to keep mischievous dogs that destroy my neighbors cattle and horses he is a liar; When he says I defend anyone in court who keeps such dogs he is a liar again and he made these remarks with malice aforethought knowing them to be lies. While he was about it why did not he say I encouraged my "gang" to keep more dogs than they can afford to feed so they would dig up the neighbors potatoes for food? Why didn't he say I kept a gang of professional poisoners, fire bugs, gun men, and general thugs for hire by the day or month. Had he done so he would have been as near the truth as he is now and no more of a liar.

As to his other rot about elections, there are none so blind as those who will not see. If Mr. Hansen did not understand my reference to past election I can only say he is a greater fool than even I take him for.

It is none of Mr. Hansens business, he says, if any of his neighbors say Victory Bonds are no good, but it is his business to fall foul of Bill Bailie because he writes nonsense about the Kaiser and in consequence class him with go-phers and coyotes. Thank good neas he classed me with mamma! It would have been terrible to have been classed with Mr. Hansen among the reptiles. Mr. Hansen states that he requires only a few more names to be sure of se-

curing his bet. Here is another instance where Mr. Hansen is far from truthful. I thought so little of Mr. Hansens absurd challenge that I have made no effort to canvass my neighbors. However at different times neighbors have asked me if I intended taking him up, if I did they would vote for me. In all twelve neighbors gave me this unsolicited support. It would be remembered Mr. Hansen challenged me to get 5 per cent. of my neighbors to vote against him, but claimed he would get 95 per cent. of them to vote against me. See this statement of Mr. Hansen that he only required a few names to be secured I thought I would see what proportion twelve was of the total. I therefore took a map showing the sections and with a compass, taking my farm as the centre I drew a circle with a four miles radius, the distance specified by Mr. Hansen. By taking each 1/4 section in turn I compiled a list of the eligible voters and I can only find 70 entitled to vote. Now as 12 of these have offered to vote for me I have Mr. Hansen beat to a frazzel without an effort. I am sure of 17 per cent. so he cannot possibly get 95 per cent.

I made my offer knowing Mr. Hansen could not win, but he was too dull witted to see my generosity. If Mr. Hansen is not a cheap windy sport he will have his \$50 in the Union Bank before the next issue of the Globe is printed. I hereby authorise Mr. Graham, to pay the money lodged with him to the Red Cross and Y. M. C. A. My money goes to those good causes whether Hansen is man enough or not to put up the goods.

Who does Mr. Hansen think he is to dictate what I am to write or what the Western Globe shall print. I will write what I like and if the Globe cares to print it that is their affair. Hansen isn't compelled to read it.

Mr. Hans P. Hansen like some other ignorant people thinks that vulgar abuse can take the place of argument. By this last trade he has not raised himself in the estimation of his neighbors. Thank God he has written his last letter and I can devote my spare time to the Bad Lands News. perpor-

ing to the meetings of the Bentley
Poker Club.Yours etc.

HIS WORK APPRECIATED

The Becton Ont. World of July 11, contains the following reference to William McDermott, father of W. N. McDermott, of Lacombe. The paper says in part:—
A man who can spend over half a century in the continuous service of a municipality and through those years retain the esteem of his colleagues, both past and present, is a man of a character that the Dominion of Canada produces in only too few numbers. Such a man is William McDermott, the veteran treasurer of the township of Tecumseh.

Fifty-two years ago, one of the bitterest campaigns the township of Tecumseh had ever known, William McDermott, a young man of 25 years of age, defeated the late Peter Nolan. From that time until a few months ago he was continuously an official of that township. In 1876 he was warden of the county and for the past over a quarter of a century he has been treasurer of the township of Tecumseh. His long association with municipal work not only made him a walking encyclopedia of the affairs of Tecumseh, but also an authority on municipal law. Closely approaching the four-score mark he decided to lay aside public cares and worries, and round out a well-spent life in peace and quietness among his beloved books. The Township Council, while loath to part with their veteran official, could not but appreciate his reasons, and reluctantly accepted his resignation.

His many municipal colleagues of the present day and those of bygone days felt that they could not let Mr. McDermott's retirement pass without giving him some token that would show the high standing he has held throughout his long years of service. The nature of the remuneration being decided upon, on Friday evening last his friends, to the number of about sixty, met at his residence and presented him with a handsome illuminated address, suitably framed.
